

Chicago Commons Child Development Program Application for Waiting List

In order to place your child on the waiting list, you must meet one of these basic requirements:

- Employed, in a training program or internship (you will be asked for written proof)
- Meet income guidelines (if applicable and proof of income will be requested)

Under the requirements of our funding contract, we must structure the program's waiting list based on families' incomes and special needs. This is the reason for the questions about family income and situation. Thank you.
